

Madhavi Indani

Deeper, in real sense, takes you deeper in understanding CET, and the mistakes we can make in attempting it if we don't practise well. Deeper and its entire process is extremely systematic, just like CET, and I feel greatly happy to be a part of it.

Deeper DCT, Kasauti, Trial sets and never the less web paper were all really beneficially. In a very affordable price it gives you great opportunity to prepare ourselves thoroughly and most important know our level in state & increase our efforts accordingly. Its a great confidence booster.

I wish to express my sincere gratitude to entire Deeper team, especially Butle sir and also Bafna sir and soni sir who always inspired me and made my way to Deeper. They all contributed greatly to my grand success!

Thank you.
